What INN Sight AI Does

Powerful tools to understand your guest feedback instantly

Sentiment Classification

Automatically classifies each review as positive, neutral, or negative using advanced AI.

Theme Detection

Identifies the primary theme — food, host, location, cleanliness, value, or experience.

Auto Responses

Generates a one-line management response suggestion for every review automatically.

Featured Reviews

Real guest feedback classified by INN Sight AI

Classifier System

Example Review: Overall the experience was comfortable and the staff were very friendly.

5 ★★★★★

Predicted Sentiment: Positive

Review Category: Room Cleanliness

Positive

Hotel Review

Great location, friendly staff. The room was clean and well maintained. Would definitely visit again!
