1 **Elena** Rooms are
dirty and bad.
I feel
disappointed.

The screenshot displays the Chrome DevTools Network tab. At the top, the 'Filter' bar is set to 'All'. Below it, the 'Fetch/XHR' filter is selected. The 'Preserve log' checkbox is checked, and the 'Disable cache' checkbox is unchecked. The 'No throttling' dropdown is visible. The waterfall chart shows a sequence of requests, with a timeline at the top indicating 50,000 ms, 100,000 ms, and 150,000 ms. The table below the chart lists the following requests:
