ABOUT INN SIGHT AI

Empowering Homestays & Hotels with AI Intelligence

INN Sight AI is an intelligent guest review classification system that automatically identifies guest satisfaction levels, detects recurring service issues, categorizes themes, and generates actionable, AI-powered management responses.

Our Mission

Hospitality managers receive hundreds of unstructured feedback comments weekly across various booking channels. INN Sight AI bridges the gap between raw guest comments and operational decision-making by serving as a real-time intelligence engine that converts reviews into instant metrics, operational recommendations, and empathetic guest replies.

Powered By Production-Grade AI Architecture

Multi-layer model fallbacks designed for zero downtime and ultra-low latency

walking trails nearby. The staff was generally polite and helped us carry our luggage up the stairs. However, the Wi-Fi in room 204 was virtually non-existent throughout our 2-day stay, making it impossible to join work calls. The room heating was also underpowered for the freezing evening temperatures, though the staff provided extra wool blankets when requested. Food at the restaurant was good but somewhat overpriced compared to nearby local eateries. Overall a decent stay, but amenities need improvement.

1	Yasmin	Our family stay at Trishul Eco-Homestay was an absolute highlight of our Himachal trip! From the moment we stepped into the property, the warm hospitality of the host family made us feel right at home. The wooden mountain cottage was immaculately clean, cozy, and offered breathtaking sunrise views over the pine valleys. Every meal was prepared fresh using organic vegetables from their home garden — the authentic local Kadi Chawal and Pahadi Dhal were sensational! The host even organized a guided evening bonfire with traditional folk music. We are thoroughly impressed and will recommend this gem to all our friends!	 positive	Cleanliness	Thank you Yasmin! We are delighted you had a wonderful experience. We look forward to welcoming you again.	 Edit  Delete
2	Ayush Rawat	The location of the resort is spectacular, situated right next to the river stream with peaceful walking trails nearby. The staff was generally polite and helped us carry our luggage up the stairs. However, the Wi-Fi in room 204 was virtually non-existent throughout our 2-day stay, making it impossible to join work calls. The room heating was also underpowered for the freezing evening temperatures, though the staff provided extra wool blankets when requested. Food at the restaurant was good but somewhat overpriced compared to nearby local eateries. Overall a decent stay, but amenities need improvement.	 neutral	Location	Thank you Ayush for your feedback. We appreciate your honest review.	 Edit  Delete
3	sunny	the place was marvellous yet the cleanliness was a matter of issue I guess. my bedroom was clean but my friend's bedroom was disgusting.	 neutral	Location	Thank you sunny for your feedback. We appreciate your honest review.	 Edit  Delete
4	Jiya	the place is marvellous indeed, I am pleased to be here.	 positive	Location	Thank you jiya! We are delighted you had a wonderful experience. We look forward to welcoming you again.	 Edit  Delete
